Cavewomen Don't Get Fat is a healthy, nutritious diet that makes you stronger, not weaker, and gives women tools to build a body that not only looks great, but also works better than ever.

Millions of years of evolution can't be wrong. So maybe you're not flaunting the latest in sabre-tooth style. Or beating your dinner to death with a club hours before you eat it. You're a twenty-first-century woman. Life has changed drastically since your ancestors discovered fire. What hasn't changed is how your body works. You're still sporting the same metabolic tendencies as your lean, toned Palaeolithic sisters. Which means that achieving a strong, healthy physique is simpler than you think. What's a modern woman with ancient needs to do? Return to her roots with a back-to-basics approach to eating that is tailored specifically to her nutritional, hormonal, and real-world needs. The Paleo Diet isn't just for hard-core CrossFitters and meat-loving men. Today's cavewoman can enjoy protein rich, hormone-balancing, detoxifying, and satisfying foods that will help her lost those annoying

15 Minutes. That's as long as we think any student should have to spend formatting their papers. Unfortunately, students often spend hours trying to find answers from hard to follow manuals or confusing websites. Whether you want a step-by-step guide to building a title page, suggestions for writing with greater clarity, or freedom from doing internet searches every time you have a question about APA standards, *APA Made Easy* is the only blueprint that you will need for writing in APA style. This comprehensive writing guide includes illustrated steps for formatting an APA document in: Microsoft Word 2010, Microsoft Word 2011 for Mac, Microsoft Word 2013, and Apple's Pages programs. You will also learn how to build an APA formatted paper from the ground up by understanding:

- How to outline information you've already gathered.
- How to write an essay or research paper from an outline.
- How to write a solid introduction.
- How to use the required headings in a research paper including Abstracts, Method, Subjects and Participants, Materials or Apparatus, Results, and Discussion sections.
- Building Citations within your paper and on your Reference page.

Also included in this guide:

Short, sassy, and bold, *Mean Genes* uses a Darwinian lens to examine the issues that most deeply affect our lives: body image, money, addiction, violence, and the endless search for happiness, love, and fidelity. But Burnham and Phelan don't simply describe the connections between our genes and our behavior; they also outline steps that we can take to tame our primal instincts and so improve the quality of our lives. Why do we want (and do) so many things that are bad for us? We vow to lose those extra five pounds, put more money in the bank, and mend neglected relationships, but our attempts often end in failure. *Mean Genes* reveals that struggles for self-improvement are, in fact, battles against our own genes -- genes that helped our cavewoman and caveman ancestors flourish but that are selfish and out of place in the modern world. Why do we like junk food more than fruit? Why is the road to romance so rocky? Why is happiness so elusive? What

drives us into debt? An investigation into the biological nature of temptation and the struggle for control, Mean Genes answers these and other fundamental questions about human nature while giving us an edge to lead more satisfying lives.
