Some Computer Science graduates who can't see themselves writing code all the time decide to go into other more general IT areas like Computing Security, Systems Administration or Networking. Here is a list of some non-Programming jobs that you could go into.

What is best career in computer science? | Yahoo Answers

In New Zealand, you only need 150 points to get in computer science, and to get 150 points you just have to pass, that's it, just pass. So it's like passing your subjects with C. But for other subjects like Software engineering you will need 240 points, that means you need to pass with merit, so it's like hmm..it's like passing all your subjects with A+ to B+, AND you need to pass all your ...
