Precast Technician : Precast Technician (for facilities which produce precast items only) .The Concrete Branch in accordance with SOP 3 is responsible for the certification of quality control personnel at approved GDOT precast/prestressed concrete facilities.

Precast Technician - Georgia Department of Transportation

The Superpave mix design method was designed to replace the Hveem and Marshall methods. The volumetric analysis common to the Hveem and Marshall methods provides the basis for the Superpave mix design method. The Superpave system ties asphalt binder and aggregate selection into the mix design process, and considers traffic and climate as well. The compaction devices from the Hveem and Marshall procedures have been replaced by a gyrotory compactor and the compaction effort in mix design is ...
