Now a Netflix film starring and directed by Chiwetel Ejiofor, this is a gripping memoir of survival and perseverance about the heroic young inventor who brought electricity to his Malawian village. When a terrible drought struck William Kankwamba's tiny village in Malawi, his family lost all of the season's crops, leaving them with nothing to eat and nothing to sell. William began to explore science books in his village library, looking for a solution. There, he came up with the idea that would change his family's life forever: he could build a windmill. Made out of scrap metal and old bicycle parts, William's windmill brought electricity to his home and helped his family pump the water they needed to farm the land. Retold for a younger audience, this exciting memoir shows how, even in a desperate situation, one boy's brilliant idea can light up the world. Complete with photographs, illustrations, and an epilogue that will bring readers up to date on William's story, this is the perfect edition to read and share with the whole family.

The May Queen brings desire, fertility, and the promise of renewal, but love can also be dark and dangerous. Avery finds that her emotions are vulnerable to the primal magic that courses through the town, as are the other witches, and suddenly relationships are under pressure as they have never been before. In the vein of Neil Strauss’ The Game and Joshua Foer’s Moonwalking with Einstein comes the fascinating story of one man’s colorful, mysterious, and personal journey into the world of magic, and his unlikely invitation into an underground secret society of revolutionary magicians from around the world. Magic Is Dead is Ian Frisch’s head-first dive into a hidden world full of extraordinary characters and highly guarded secrets. It is a story of imagination, deception, and art that spotlights today’s most brilliant young magicians—a mysterious club known as the52, who are revolutionizing an ancient artform under the mantra Magic Is Dead. Ian brings us with him as he not only gets to know this fascinating world, but also becomes an integral part of it. We meet the52’s founding members—Laura London, Daniel Madison, and Chris Ramsay—and explore their personal demons, professional aspirations, and what drew them to their craft. We join at private gatherings of the most extraordinary magicians working today, follow them to magic conventions in Las Vegas and England, and discover some of the best tricks of the trade. We also encounter David Blaine; hang out with Penn Jillette; meet Dynamo, the U.K.’s most famous magician; and go behind the scenes of a Netflix magic show. Magic Is Dead is also a chronicle of magic’s rich history and how it has changed in the internet age, as the young guns embrace social media and move away from the old-school take on the craft. As he tells the story of the52, and his role as its most unlikely member, Ian reveals his own connection with trickery and deceit and how he first learned the elements that make magic work from his poker-playing mother. He recalls their adventures in card rooms and casinos after his father’s sudden death, and shares a touching moment that he had, as a working journalist, with his childhood idol Shagulle O’Neal. “Magic—the romanticism of the inexplicable, the awe and admiration of the unexpected—is an underlying force in how we view the world and its myriad possibilities,” Ian writes. As his journey continues, Ian not only becomes a performer and creator of magic—even fooling the late Anthony Bourdain during a chance encounter—he also cements a new brotherhood, and begins to understand his relationship with his father, fifteen years after his death. Written with psychological acuity and a keen eye for detail, Magic Is Dead is an engrossing tale full of wonder and surprise.

“An extraordinary piece of history...a fresh and lively read” (The Christian Science Monitor)—the passionate, gripping, true story of one man’s single-minded quest to reclaim his family’s art collection, stolen by the Nazis in World War II. Simon Goodman’s grandparents came from German-Jewish banking dynasties and perished in concentration camps. And that’s almost all he knew about them—his father rarely spoke of their family history or heritage. But when his father passed away, and Simon received his old papers, a story began to emerge. The Gutmanns, as they were known then, rose from a small Bohemian hamlet to become one of Germany’s most powerful banking families. They also amassed a magnificent, world-class art collection that included works by Degas, Renoir, Botticelli, Guardi, and many, many more. But the Nazi regime snatched from them everything they had worked to build: their remarkable art, their immense wealth, their prominent social standing, and their very lives. Only after his father’s death did Simon begin to piece together the clues about the Gutmanns’ stolen legacy and the Nazi looting machine. With painstaking detective work across two continents, Simon has been able to prove that many works belonged to his family and successfully secure their return. “Fascinating...splendid and tragic” (The Wall Street Journal), “Goodman’s story is alternately wrenching and inspiring...An emotional tale of unspeakable horrors, family devotion, and art as a symbol of hope” (Kirkus Reviews). It is not only the account of a twenty-year detective hunt for family treasure, but an unforgettable tale of redemption and restoration.
