Overview Ghost Wars: The Secret History of the CIA, Afghanistan, and Bin Laden, Study Guide consists of approx. 35 pages of summaries and analysis on Ghost Wars by Steve Coll.

The news-breaking book that has sent shockwaves through the White House, Ghost Wars is the most accurate and revealing account yet of the CIA's secret involvement in al-Qaeda's evolution. Prize-winning journalist Steve Coll has spent years reporting from the Middle East, accessed previously classified government files and interviewed senior US officials and foreign spymasters. Here he gives the full inside story of the CIA's covert funding of an Islamic jihad against Soviet forces in Afghanistan, explores how this sowed the seeds of bin Laden's rise, traces how he built his global network and brings to life the dramatic battles within the US government over national security. Above all, he lays bare American intelligence's continual failure to grasp the rising threat of terrorism in the years leading to 9/11 - and its devastating consequences.

Winner of the 2005 Pulitzer Prize From the award-winning and bestselling author of Directorate S, the explosive first-hand account of America's secret history in Afghanistan To what extent did America's best intelligence analysts grasp the rising thread of Islamist radicalism? Who tried to stop bin Laden and why did they fail? Comprehensively and for the first time, Pulitzer Prize-winning journalist Steve Coll recounts the history of the covert wars in Afghanistan that fueled Islamic militancy and sowed the seeds of the September 11 attacks. Based on scrupulous research and firsthand accounts by key government, intelligence, and military personnel both foreign and American, Ghost Wars details the secret history of the CIA's role in Afghanistan (including its covert operations against Soviet troops from 1979 to 1989), the rise of the Taliban, the emergence of bin Laden, and the failed efforts by U.S. forces to find and assassinate bin Laden in Afghanistan.

Provides a comprehensive overview of the CIA's and other covert agencies' operations in Afghanistan, from the Soviet invasion in 1979 through the summer of 2001, detailing the rise of the Taliban and bin Laden, the secret efforts of the CIA to capture or kill bin Laden since 1998, and their failure to stop bin Laden, al Qaeda, and the events of September 11th.

Provides an overview of CIA and other covert operations in Afghanistan, from the Soviet invasion in 1979 through the summer of 2001, detailing efforts to capture or kill bin Laden and the failure to stop the events of September 11th.

Winner of the 2018 National Book Critics Circle Award for Nonfiction Longlisted for the 2018 National Book Award for Nonfiction From the Pulitzer Prize-winning author of Ghost Wars, the epic and enthralling story of America's intelligence, military, and diplomatic efforts to defeat Al Qaeda and the Taliban in Afghanistan and Pakistan since 9/11 Prior to 9/11, the United States had been carrying out small-scale covert operations in Afghanistan, ostensibly in cooperation, although often in direct opposition, with I.S.I., the Pakistani intelligence agency. While the US was trying to quell extremists, a highly secretive and compartmentalized wing of I.S.I., known as "Directorate S," was covertly training, arming, and seeking to legitimize the Taliban, in order to enlarge Pakistan's sphere of influence. After 9/11, when fifty-nine countries, led by the U. S., deployed troops or provided aid to Afghanistan in an effort to flush out the Taliban and Al Qaeda, the U.S. was set on an invisible slow-motion collision course with Pakistan. Today we know that the war in Afghanistan would falter badly because of military hubris at the highest levels of the Pentagon, the drain on resources and provocation in the Muslim world caused by the U.S.-led invasion of Iraq, and corruption. But more than anything, as Coll makes painfully clear, the war in Afghanistan was doomed because of the failure of the United States to apprehend the motivations and intentions of I.S.I.'s "Directorate S". This was a swirling and shadowy struggle of historic proportions, which endured over a decade and across both the Bush and Obama administrations, involving multiple secret intelligence agencies, a litany of incongruous strategies and tactics, and dozens of players, including some of the most prominent military and political figures. A sprawling American tragedy, the war was an open clash of arms but also a covert melee of ideas, secrets, and subterranean violence. Coll excavates this grand battle, which took place away from the gaze of the American public. With unsurpassed expertise, original research, and attention to detail, he brings to life a narrative at once vast and intricate, local and global, propulsive and painstaking. This is the definitive explanation of how America came to be so badly ensnared in an elaborate, factional, and seemingly interminable conflict in South Asia. Nothing less than a forensic examination of the personal and political forces that shape world history, Directorate S is a complete masterpiece of both investigative and narrative journalism.

## Read Free Ghost Wars The Secret History Of Cia Afghanistan And Bin Laden From Soviet Invasion To September 10 2001 Steve Coll

The rise and rise of the Bin Laden family is one of the great stories of the twentieth century; its repercussions have already deeply marked the twenty-first. Until now, however, it is a story that has never been fully told, as the Bin Ladens have successfully fended off attempts to understand the family circles from which Osama sprang. In this the family has been abetted by the kingdom it calls home, Saudi Arabia, one of the most closed societies on earth. Steve Coll's *The Bin Ladens: An Arabian Family in the American Century* is the groundbreaking history of a family and its fortune. It chronicles a young illiterate Yemeni bricklayer, Mohamed Bin Laden, who went to the new, oil-rich country of Saudi Arabia and quickly became a vital figure in its development, building great mosques and highways and making himself and many of his children millionaires. It is also a story of the Saudi royal family, whom the Bin Ladens served loyally and without whose capricious favor they would have been nothing. And it is a story of tensions and contradictions in a country founded on extreme religious purity, which then became awash in oil money and dazzled by the temptations of the West. In only two generations the Bin Ladens moved from a famine-stricken desert canyon to luxury jets, yachts, and private compounds around the world, even going into business with Hollywood celebrities. These religious and cultural gyrations resulted in everything from enthusiasm for America—exemplified by Osama's free-living pilot brother Salem—to an overwhelming determination to destroy it. *The Bin Ladens* is a meticulously researched, colorful, shocking, entertaining, and disturbing narrative of global integration and its limitations. It encapsulates the unsettling contradictions of globalization in the story of a single family who has used money, mobility, and technology to dramatically varied ends.

History comes alive -- with ghosts! In the basement of his family's junkshop, Anderson and his friends Greg and Julie discover a trunk full of old military stuff. Including a battered navy peacoat from World War II, and when Anderson puts it on he finds a mysterious letter in the pocket. Curious, he takes the coat and letter home. But that's not all he brings home . . . Later that evening the ghost of a World War II sailor appears in Anderson's room. Anderson is completely freaked out. Who is the ghost and why hasn't he crossed over? But most importantly, what does he want with Anderson? Anderson, Greg, and Julie set out to find the truth and are soon wrapped up in a mystery that's over seventy years old. But it quickly becomes a race against the clock as they search to put the clues of sailor's life together before he vanishes for good. After everything he gave for his country, can Anderson, Julie, and Greg solve the mystery of the ghost before he disappears forever?

The groundbreaking investigative story of how three successive presidents and their military commanders deceived the public year after year about America's longest war, foreshadowing the Taliban's recapture of Afghanistan, by Washington Post reporter and three-time Pulitzer Prize finalist Craig Whitlock. Unlike the wars in Vietnam and Iraq, the US invasion of Afghanistan in 2001 had near-unanimous public support. At first, the goals were straightforward and clear: to defeat al-Qaeda and prevent a repeat of 9/11. Yet soon after the United States and its allies removed the Taliban from power, the mission veered off course and US officials lost sight of their original objectives. Distracted by the war in Iraq, the US military became mired in an unwinnable guerrilla conflict in a country it did not understand. But no president wanted to admit failure, especially in a war that began as a just cause. Instead, the Bush, Obama, and Trump administrations sent more and more troops to Afghanistan and repeatedly said they were making progress, even though they knew there was no realistic prospect for an outright victory. Just as the Pentagon Papers changed the public's understanding of Vietnam, *The Afghanistan Papers* contains startling revelation after revelation from people who played a direct role in the war, from leaders in the White House and the Pentagon to soldiers and aid workers on the front lines. In unvarnished language, they admit that the US government's strategies were a mess, that the nation-building project was a colossal failure, and that drugs and corruption gained a stranglehold over their allies in the Afghan government. All told, the account is based on interviews with more than 1,000 people who knew that the US government was presenting a distorted, and sometimes entirely fabricated, version of the facts on the ground. Documents unearthed by *The Washington Post* reveal that President Bush didn't know the name of his Afghanistan war commander—and didn't want to make time to meet with him. Secretary of Defense Donald Rumsfeld admitted he had “no visibility into who the bad guys are.” His successor, Robert Gates, said: “We didn't know jack shit about al-Qaeda.” *The Afghanistan Papers* is a shocking account that will supercharge a long overdue reckoning over what went wrong and forever change the way the conflict is remembered.

Steve Coll's trek across South Asia.

An investigation into the secretive corporation traces the period between the Exxon Valdez accident and the Deepwater Horizon spill to profile chief executives Lee Raymond and Rex Tillerson as well as the company's role in violent international incidents.
