Why do people in socialist China read and write literary works? Earlier studies in Western Sinology have approached Chinese texts from the socialist era as portraits of society, as keys to the tug-of-war of dissent, or, more recently, as pursuit of "pure art." The Uses of Literature looks broadly

File Type PDF Loliwood Studio Stories

and empirically at these and many other "uses" of literature from the points of view of authors, editors, political authorities, and several kinds of readers. Perry Link, author of *Evening Chats in Beijing*, considers texts ranging from elite "misty" poetry to underground hand-copied volumes

(shouchauben) and shows in concrete detail how people who were involved with literature sought to teach, learn, enjoy, explore, debate, lead, control, and resist. Using the late 1970s and early 1980s as an entree to the workings of China's "socialist literary system," the author shows how that

system held sway from 1950 until around 1990, when an encroaching market economy gradually but fundamentally changed it. In addition to providing a definitive overview of how the socialist Chinese literary system worked, Link offers comparisons to the similar system in

the Soviet Union. In the final chapter, the book seeks to explain how the word "good" was used and understood when applied to literary works in such systems. Combining aspects of cultural and literary studies, *The Uses of Literature* will reward anyone interested in the literature of modern

production in the Third World. Although they are usually ignored or marginalized in histories of world cinema," Third World countries now produce well over half of the world's films. Roy Armes sets out initially to place this huge output in a wider context, examining the forces of

File Type PDF Loliwood Studio Stories

tradition and colonialism that have shaped the Third World--defined as those countries that have emerged from Western control but have not fully developed their economic potential or rejected the capitalist system in favor of some socialist alternative. He then considers the paradoxes of social

structure and cultural life in the post-independence world, where even such basic concepts as "nation," "national culture," and "language" are problematic. The first experience of cinema for such countries has invariably been that of imported Western films, which created the

audience and, in most cases, still dominate the market today. Thus, Third World film makers have had to assert their identity against formidable outside pressures. The later sections of the book look at their output from a number of angles: in terms of the stages of overall growth and

corresponding stages of cinematic development; from the point of view of regional evolution in Asia, Africa, and Latin America; and through a detailed examination of the work of some of the Third World's most striking film innovators. In addition to charting the broad outlines of filmic developments

too little known in Europe and the United States, the book calls into question many of the assumptions that shape conventional film history. It stresses the role of distribution in defining and limiting production, queries simplistic notions of independent "national cinemas," and

File Type PDF Loliwood Studio Stories

points to the need to take social and economic factors into account when considering authorship in cinema. Above all, the book celebrates the achievements of a mass of largely unknown film makers who, in difficult circumstances, have distinctively expanded our definitions of the art of

cinema. Roy Armes, who lives in London, has written nine books on film, his most recent being French Cinema. He spent more than three years researching this volume.
