by Dr. Ines Espinoza dr.ines@vasantcorporation.com. www.vasantcorporation.com. After a 7 year research study, a senior staff aerospace defense engineer, George J. Bugh, concludes economically free energy and even anti-gravity are possible. A 7 year study of "free energy" devices, sometimes called "over unity" devices, was done to determine if any of these devices generated power by transferring energy from unknown sources and if so to determine where the energy was coming from.

Free energy devices have been around for a very long time now. I have stood beside a water mill and it s power is scary as it could crush you in moments and never even notice. That mill is on a quietly flowing small river and it can operate at any time day or night without anyone having to pay anything for the power which it uses.

Simple Free-Energy information  
"Free-Energy Devices" or "Zero-Point Energy Devices" are the names applied to systems which appear to produce a higher output power than their input power. There is a strong tendency for people to state that such a system is not possible since it contravenes the Law of Conservation of Energy. It doesn't. If it did, and any such
