Hot testing. We fire up the engine and run it for at least 15 minutes under pressure. See if the oil and coolant are doing their job. See if the engine performs to the same high standards as a new MerCruiser engine. And to make it official, we back it the same way. With the same MerCruiser one-year limited factory warranty. The aftermarket fix.

This struck me because as most all marine engines in an i/o application I could think of began their life as automotive based engines. The 3.7 however was different, the 3.7 was never an automotive based engine. It was designed from the beginning for a marine application, the block by Mercruiser the head by Ford, the internals a joint effort.
