I am Special is a workbook developed by Peter Vermeulen and already used extensively

with young people with autism spectrum disorder. The workbook is designed for a child to work through with an adult - parent, teacher or other professional. Unlike other books, its content and layout are

Access PDF Oaframeworkbe ginnerguide

devised especially for children who read, think and process information differently. I am Special is divided into two parts. The first is a theoretical introduction that explains how to inform children that

Access PDF Oaframeworkbe ginnerguide

they have autism or Asperger Syndrome and how to use the worksheets with groups or individuals. The second part consists of a series of worksheets which the child works through with an adult to create a unique and
