Against her boyfriend's wish, Tolu keeps an unwanted pregnancy, which eventually leads to the end of their enviable relationship. Two years later, Daniel returns from Canada, desperate to make things right with Tolu, who had changed her phone number and blocked him on social media. Will Daniel ever find Tolu? And with Bisi in the picture, will Tolu be able to shrug off her deep-seated affection and hatred for Daniel? Set in Nigeria, *The Last Time We Loved* is the story of a young single mum's journey through forgiveness, faith, love, and choice.

This 2006 volume provides a comprehensive discussion of communication between doctors and patients in primary care consultations. It brings together a team of leading contributors from the fields of linguistics, sociology and medicine to describe each phase of the primary care consultation, identifying the distinctive tasks, goals and activities that make up each phase of primary care as social interaction. Using conversation analysis techniques, the authors analyze the sequential unfolding of a visit, and describe the dilemmas and conflicts faced by physicians and patients as they work through each of these activities. The result is a view of the medical encounter that takes the perspective of both physicians and patients in a way that is both rigorous and humane. Clear and comprehensive, this book will be essential reading for students and researchers in sociolinguistics, communication studies, sociology, and medicine.

This book provides guidance to researchers about how to develop interview skills that align with their theoretical assumptions. Connecting "theory" and "method" can be challenging for novice researchers. *Interviewing: A Guide to Theory and Practice* draws from, and extends, the author's earlier 2010 book, and focuses on three interrelated issues, how researchers: theorize research interviews; examine their subject positions in relation to projects and participants; and explore the details of interview interaction to inform practice. By developing these understandings of qualitative interview practice, Kathryn Roulston shows how researchers can design and conduct quality research projects that draw on a wide range of interview practices to provide audience members and communities with significant findings concerning social problems.
