Learning and teaching is an integrated process, and theory and practice cannot be separated. As in the previous Australasian edition, Educational Psychology 3e continues to emphasise the educational implications and applications of child development, cognitive science, learning and teaching. Recurring themes throughout the text include ideas about education; social and socio-cultural aspects of education; schools, families and community; development, learning and curriculum; and effective teaching. Author Kay Margetts incorporates Australasian perspectives and applications using the work of Australasian researchers and teachers. Numerous examples, case studies, guidelines and practical tips from experienced teachers are used in the text to explore the connections between knowledge, understanding and practice.

by Shelly Breitenstein Heavily reviewed for accuracy and quality, every chapter in the text contains a chapter summary, a list of learning objectives, a detailed chapter outline, key terms and people, 3-5 student projects, and a practice test with 30 multiple-choice, 20 true-false, 15 short answer, 10 matching and 5 essay questions. An answer key is provided for all questions. The Study Guide Plus also includes a section on successful study strategies, and a subscription to AWHE Tutor Center. Available separately for student purchase, or packaged with the text at a discount.

The Study Guide and Selected Solutions Manual as written specifically to assist students using Basic Chemistry. It contains learning objectives, chapter outlines, additional problems with self-tests and answers, and answers to the odd-numbered problems in the text.
