The encyclopedia is available online through Wiley Online Library, a major database of Journals, Handbooks and reference in the field.

SWOT, PESTLE & PRIMO-F analysis are amongst the most commonly misused tools in business. This book sets out the myths and practical applications of these and other diagnostic approaches is a robust but practical way.

The "Greatest Business Book of All Time" (Bloomsbury UK), In Search of Excellence has long been a must-have for the boardroom, business school, and bedside table. Based on a study of forty-three of America's best-run companies from a diverse array of business sectors, In Search of Excellence describes eight basic principles of management -- action-stimulating, people-oriented, profit-maximizing practices -- that made these organizations successful. Joining the HarperBusiness Essentials series, this phenomenal bestseller features a new Authors' Note, and reintroduces these vital principles in an accessible and practical way for today's management reader.

MORE THAN ONE MILLION COPIES IN PRINT • " One of the seminal management books of the past seventy-five years. " —Harvard Business Review This revised edition of the bestselling classic is based on fifteen years of experience in putting Peter Senge ' s ideas into practice. As Senge makes clear, in the long run the only sustainable competitive advantage is your organization ' s ability to learn faster than the competition. The leadership stories demonstrate the many ways that the core ideas of the Fifth Discipline, many of which seemed radical when first published, have become deeply integrated into people ' s ways of seeing the world and their managerial practices. Senge describes how companies can rid themselves of the learning blocks that threaten their productivity and success by adopting the strategies of learning organizations, in which new and expansive patterns of thinking are nurtured, collective aspiration is set free, and people are continually learning how to create the results they truly desire. Mastering the disciplines Senge outlines in the book will: • Reignite the spark of genuine learning driven by people focused on what truly matters to them • Bridge teamwork into macrocreativity • Free you of confining assumptions and mindsets • Teach you to see the forest and the trees • End the struggle between work and personal time This updated edition contains more than one hundred pages of new material based on interviews with dozens of practitioners at companies such as BP, Unilever, Intel, Ford, HP, and Saudi Aramco and organizations such as Roca, Oxfam, and The World Bank.

The context and environment of public services is becoming increasingly complex and the management of change and innovation is now a core task for the successful public manager. This text aims to provide its readers with the skills necessary to understand, manage and sustain change and innovation in public service organizations. Key features include: the use of figures, tables and boxes to highlight ideas and concepts of central importance a dedicated case study to serve as a focus for discussion and learning, and to marry theory with practice clear learning objectives for each chapter with suggestions for further reading. Providing future and current public managers with the understanding and skills required to manage change and innovation, this groundbreaking text is essential reading for all those studying public management, public administration and public policy.

This book offers a practical and reliable approach to how an organization can move beyond all of the separate initiatives and hype associated with sustainability. It shows how to build in what is already in place, in order to create a sense of stewardship that protects the environment, creates a sense of social well-being, and shared value within the organization.

Seminar paper from the year 2019 in the subject Business economics - Investment and Finance, grade: 1,0, Leipzig Graduate School of Management, language: English, abstract: In this paper the company E*TRADE Financial Corporation (' E-Trade ') is analyzed from a strategic point of view. The objective of this paper is to derive a recommendation for the strategic positioning and evaluate if it would be a clever investment at the moment. In order to reach the objective, this paper follows a comprehensive structure: First, an overview of E-Trade and its industry is given. Second, E- Trade will be analyzed from an external perspective. This includes a macro, industry, and competitor analysis. Third, an internal analysis is conducted which is done by breaking down E-Trade ' s value chain and benchmarking internal KPI against the main competitors. Fourth, the findings of the individual analyses are integrated in order to derive strategic recommendations for action. Lastly, the results of the paper are concluded and a final investment recommendation is provided.

Solving complex problems and selling their solutions is critical for personal and organizational success. For most of us, however, it doesn ' t come naturally and we haven ' t been taught how to do it well. Research shows a host of pitfalls trips us up when we try: We ' re quick to believe we understand a situation and jump to a flawed solution. We seek to confirm our hypotheses and ignore conflicting evidence. We view challenges incompletely through the frameworks we know instead of with a fresh pair of eyes. And when we communicate our recommendations, we forget our reasoning isn ' t obvious to our audience. How can we do it better? In Cracked It!, seasoned strategy professors and consultants Bernard Garrette, Corey Phelps and Olivier Sibony present a rigorous and practical four-step approach to overcome these pitfalls. Building on tried-and-tested (but rarely revealed) methods of top strategy consultants, research in cognitive psychology, and the latest advances in design thinking, they provide a step-by-step process and toolkit that will help readers tackle any challenging business problem. Using compelling stories and detailed case examples, the authors guide readers through each step in the process: from how to state, structure and then solve problems to how to sell the solutions. Written in an engaging style by a trio of experts with decades of experience researching, teaching and consulting on complex business problems, this book will be an indispensable manual for anyone interested in creating value by helping their organizations crack the problems that matter most.

This handbook was designed to provide up-to-date and practical guidance on national health planning and strategizing for health. It establishes a set of best practices to support strategic plans for health and represents the wealth of experience accumulated by WHO on national health policies, strategies, and plans (NHPSPs). WHO has been one of the leading organizations to support countries in the development of NHPSPs. The focus on improving plans has grown in recent years in recognition of the benefits of anchoring a strong national health sector in a written vision based on participation, analysis, and evidence.

This textbook provides students with real-world social marketing case studies from different countries and regions around the world, taking learners from classroom theory to practice. The primary objective is to clearly portray to students distinct, identifiable steps that are essential for successful social marketing campaigns. Core social marketing practices are applied to each case to help students master social marketing principles and apply them to their own real world social marketing activities in order to affect positive social change. This textbook first provides the tools necessary to understand the effective applica- tion of social marketing, and then offers 24 case studies exemplifying effective social marketing efforts from all around the world. Specifically, Part I clearly and concisely explains the principles of social marketing in five chapters: • Upstream vs. downstream social marketing, SWOT, competition • Fundamentals of social marketing, ethics • Formative and Evaluative Research • Theories applied in social marketing • A historical perspective on social marketing Part II features 24 social marketing case studies that demonstrate the application of social marketing principles. All 24 cases follow a consistent structure that includes: • Background • Positioning • SWOT • Research • Objectives • The 4 P ' s • Target audience • Evaluation • Barriers and benefits • Discussion • Competition This format allows for students and professors to easily and effectively select individual cases and compare between cases. This textbook also allows instructors to encourage critical thinking by having students compare and contrast not only the cases themselves, but the applications used. In addition, teaching guides with answers to discussion questions, suggestions for activities inside and outside of the classroom and further readings are available to assist professors in teaching from this book.
