IA book that looks at existence with equal measures of fear, humility and gratitude. In a time when novelists tend to be more concerned with psychology than the soul, that makes it a rare and valuable thing. --Sam Sacks, Wall Street Journal From the author of Mr. Eternity, a darkly comic road novel about a millennial couple facing the ultimate question: how to live and love in an age of catastrophe. Young Miami couple Murphy and Eva have almost decided to have a baby when Yahweh, the Old Testament God, appears to Eva and makes an unwelcome demand: He wants her to be his prophet. He also wants her to manage his social media presence. Yahweh sends the two on a wild road trip across the country, making incomprehensible demands and mandating arcane rituals as they go. He gives them a hundred million dollars, but he asks them to use it to build a temple on top of a landfill. He forces them to endure a period of Biblical wandering in the deserts of the southwest. Along the way they are continually mistaken for another couple, a pair of North Carolina society people, and find themselves attending increasingly bizarre events in their names. At odds with their mission but helpless to disobey, Murphy and Eva search their surroundings for signs of a future they can have faith in. Through wry observations about the biggest things--cosmology and theology--and the smallest things--the joys and irritations of daily life--Thier questions the mysterious forces that shape our fates, and wonders how much free will we really have. Equal parts hilarious and poignant, The World Is a Narrow Bridge asks: What kind of hope can we pass on to the next generation in a frightening but beautiful world?

Innovation in technology and services was once the result of specialist knowledge developed within a single corporation; now, a single focus on the development of new products and services is no longer enough. In Interactive Business Communities, Mitsuru Kodama shows how a new business approach can enable managers to access, share and integrate diverse knowledge both inside and outside the corporation using Boundary Networks to operate across more formal organizational and knowledge boundaries at all levels. Drawing on his studies of large corporations in America and the Far East, Mitsuru, shows how different companies have already started to take this path. He explains the kind of networks and strategic partnerships that have emerged and gives practical guidelines on how to begin forming in-house business communities and extending this to interactive business communities with customers and other organizations. This book is a valuable resource for business educators and researchers, and senior executives responsible for strategy, particularly in high-tech industries, will find insights and ideas to tackle 21st century market and business discontinuities.
