Varieze Plans

Burt Rutan set up the Rutan Aircraft Factory in 1974 and set about radically altering the format of home-build light aircraft by designing and building the Rutan VariEze. The revolutionary

File Type PDF

Varieze Plans

design of the VariEze belied its simplicity. It was initially powered by a pusher Volkswagen engine (but later a larger Avco Lycoming type), and the wing configuration was forward

Institution

Rutan began publishing plans in July 1976 and the first homebuilt

VariEzes began to fly less than a year later in March. At that time, it was rare indeed for builders to go from a set of

File Type PDF

Varieze Plans

plans to a flying, high-performance airplane so quickly. The key to such rapid construction lay in Rutan's choice of composite construction.

But the airplane attracted so much positive interest that Rutan designed and built a slightly larger, more powerful version and offered plans for sale. That design became the very popular VariEze

File Type PDF

Varieze Plans

homebuilt.

Later, Rutan introduced a long-range version of the VariEze called the Long-EZ, designing it with more room, more fuel, and more payload.
