Chassis & Engine Serial Numbers | Volkswagen Owners Club (GB)

At first VW used a styraight number for the engine number . By 19561 this number had reasched just under 3.9 million with the 36hp 1200 engine, and in that year they introduced the first 40HP 1200 engine, so started a new number sequence stafting with % million for the 40HP engine, leaving enough numbers for the 36 hp engine (still an option) to continue into the 4 millions.

Engine Number - vw-resource.com

These are listed here as beginning with '1', even though the highest non-letter engine number in practice was 9800000. The engine capacity is given in cubic centimetres (cc). Early engines are usually rounded off – such as the 1192cc engine listed as a 1200 – but modern engines give the exact figure.

VW Engine Codes - Club VeeDub

The engine that was originally installed in your VW at the factory, had an engine number stamped into the case, just below the generator stand. This number consists of one or two letters followed by a series of numeric digits. The engine number does not equal the vehicle's VIN, but VW kept records of each new vehicle's original engine number code, and if you write

to them you can get this information (for More Info. click here).

Volkswagen Engine Number Codes, from Bustopia.com
Information from a 5/73 USA service bulletin issued 5/73: Engines with the re-manufactured symbol, a letter, a number and ending with X, indicates a VW Exchange engine. Before Oct., 1968 the X was not stamped onto the block. From April of 1972 Shortblocks were sold with the VW remanufacture symbol followed by a letter.
