I came to Roger Deakin's "Waterlog" with high hopes, having loved watery places and swimming since I was small and having heard about his fine writing. I am not disappointed. This is a beautifully written and passionate book written in the form of a diary and it describes Deakin's explorations of rivers, pools, lidos, tarns and, of course, the sea.

From the author of the acclaimed and much-loved *Waterlog* and *Wildwood*. For the last six years of his life, Roger Deakin kept notebooks in which he wrote his daily thoughts, impressions, feelings and observations. Discursive, personal and often impassioned, they reveal the way he saw the world, whether it be observing the teeming ecosystem that was Walnut Tree Farm,

thinking about the wider environment, walking in his fields or on Mellis Common, or quietly contemplating his past and present life. Notes From Walnut Tree Farm collects the very best of these writings, capturing Roger's extraordinary, restless curiosity into the natural and human worlds, his love of literature and music, his knack for making unusual and apposite connections, and of course his distinct and subversive charm and humour. Together they cohere to present a passionate, engaged and - in spite of the worst pressures of contemporary life - optimistic view of our changing world.

Is there anything quite so exhilarating as swimming in wild water? This is a joyful swimming tour of Britain, a frog's-eye view of the country's best bathing holes - the rivers, rock pools, lakes, ponds, lochs and sea that define a watery island. Charming, funny,

Here, published for the first time in the United States, is the last book by Roger Deakin, famed British nature writer and icon of the environmentalist movement. Britain, Europe, Kazakhstan, and Australia in search of what lies behind man's profound and enduring connection with trees. Deakin lives in forest shacks, goes "coppicing" in Suffolk, swims beneath the walnut trees of the Haut-Languedoc, and hunts bushplums with Aboriginal women in the outback. Along the way, he ferrets out the mysteries of woods, detailing the life stories of the timber beams composing his Elizabethan house and searching for the origin of the apple. As the world's forests are whittled away, Deakin's sparkling prose evokes woodlands anarchic with life, rendering each tree as an individual, living being. At once a traveler's tale and a splendid work of natural history, *Wildwood* reveals, amid the world's marvelous diversity, that which is universal in human experience.

inspire healing and joy' Robert MacFarlane In the breaststrokes of Roger Deakin's *Waterlog*, this is the story of one man's search for himself across the breadth of Britain's wild waters. Joe Minihane became obsessed with wild swimming and the way it soothed his anxiety, developing a new-found passion by following the example of naturalist Deakin in his own swimming memoir. While fighting the currents - sometimes treading water Minihane swims to explore, to forget, to find the path back to himself through nature, and in the water under an open sky he finally begins to find his peace. *Floating* is a remarkable memoir about a love of swimming and a deep appreciation for the British countryside: it captures Minihane's struggle to understand himself, and the healing properties of wild stretches of water. From Hampstead to Yorkshire, Dorset to Jura, the Isles of Scilly to Wales, Minihane uses *Waterlog* to trace his

The story, mainly in pictures, but also in words, of the rebuilding of the 16th-century Suffolk farmhouse that the environmentalist Roger Deakin lived in from the early 1970s until his death in 2006.

In a masterful work of cultural history, Charles Sprawson, himself an obsessional swimmer and fluent diver, explores the meaning that different cultures have attached to water, and the search for the springs of classical antiquity. In nineteenth-century England bathing was thought to be an instrument of social and moral reform, while

in Germany and America swimming came to signify escape. For the Japanese the swimmer became an expression of samurai pride and nationalism. Sprawson gives us fascinating glimpses of the great swimming heroes: Byron leaping dramatically into the surf at Shelley's beach funeral; Rupert Brooke swimming naked with Virginia Woolf, the dark water "smelling of mint and mud"; Hart Crane swallow-diving to his death in the Bay of Mexico; Edgar Allan Poe's lone and mysterious river-swims; Leander, Webb, Weissmuller, and a host of others. Informed by the literature of Swinburne, Goethe, Scott Fitzgerald, and Yukio Mishima; the films of Riefenstahl and Vigo; the Hollywood "swimming musicals" of the 1930s; and delving in and out of Olympic history, *Haunts of the Black Masseur* is an enthralling assessment of man-body submerged, self-absorbed. It is quite simply the best celebration of
